Dear Josh:

I am writing to thank you for helping Wiley and I book *Soul Society* for our wedding reception. You know from our numerous conversations before the wedding how important it was for us to have a band that really got the crowd moving and dancing and, as Wiley is a musician himself, the standards were set pretty high.

They were great from the start. They handled the introductions of the wedding party and the toasts very professionally and played some soothing jazz while guests were dismissed to the buffet. Their rendition of Sam Cook's *You Send Me* for our wedding song really touched us. After that the party really got going...

We loved the R&B and Motown classics and were very pleased to hear some Reggae and Salsa as well. There was truly something for everyone and people danced all night long, right up to the last song of the evening.

Of course, I never like to admit it when I worry too much but you were right, *Soul Society* took care of everything and they really made our night. Please feel free to refer any of your clients to me for a reference, as I would be happy to share my experience. I'll be in touch.

Take care and thanks again.

Sincerely,
